Review Triggers

The review triggers that would reasonably suggest that the TMD is no longer appropriate are:

- A significant dealing of the product to consumers outside the target market occurs;
- A significant number of complaints is received from customers in relation to their purchase or use of the product that reasonably suggests that the TMD is no longer appropriate;
- A material change to the product or the terms and conditions of the product occurs which would cause the TMD to no longer be appropriate;
- Material changes to fees or rates of interest
- 20% or more of loans are paid out early

The *Product Governance Framework* includes regular consideration of whether there has been a review trigger following each distribution information report. That consideration is by reference to paragraphs 154 to 156 of RG 274.

Review Periods

First review date: 5 October 2022

Periodic reviews: every 2 years after the initial and each subsequent review.
